

SECURITY RULES AND REGULATIONS FOR VENDORS, CONTRACTORS AND
OTHER AUTHORIZED VISITORS AT NORTH BASE

1. North Base is a restricted area and access is strictly controlled at all times. As a contractor or visitor you must furnish the information on the attached form, enter and leave the compound via gate #2 and agree to a Plant Protection escort while in the compound.
2. A temporary badge will be issued and must be worn in a conspicuous manner at all times while in the area. The badge will be turned in to the Plant Protection Officer each time you leave the compound. When temporarily departing the area, advise the Plant Protection Officer of your expected return and remember the number of the badge issued. Each individual is responsible for the badge issued and will be held accountable for lost badges.
3. No personal vehicles are permitted within the compound except as deliveries are necessary or tools or equipment are too heavy to hand carry. When a vehicle is authorized for delivery it must be removed as soon as possible and parked in the area adjacent to post #2.
4. A cafeteria is located outside the compound area near the main gate and is available for your use. Toilet facilities are available in the cafeteria and adjacent to post #2.
5. Weekend and work performed other than during normal duty hours must be approved in advance by the North Base Inspection Officer and Chief, North Base Plant Protection Office.
6. All personnel are reminded to concern themselves only with their specifically assigned task while in the compound. Undue interest in the operation of this squadron, overt speculation, and questioning of squadron personnel may cause removal from the area. In addition, personnel are reminded to follow the instructions and directions issued by the Plant Protection Officers.
